

**CS3300: Data Science Term Project
EVALUATION FORM**

Date: _____ Evaluator: _____ Presentation Length: _____ (13-15 min.)

Group Members: _____

Presentation Title: _____

SCORE _____ / 100 Points

PRESENTATION CONTENT:

_____ **Pertinent Background Information:** The group members have adequately presented their peers with the pertinent background information to understand the dataset. (10 pts.)

_____ **Research Hypothesis:** The research questions, goals, and/or hypothesis of the study were made clear. (10 pts.)

_____ **Experimental Design:** The methods were clearly outlined and fully explained. (15 pts.)

_____ **Results:** The research results were clearly articulated. This includes the proper explanation of graphs, figures, and tables. (20 pts.)

_____ **Discussion:** The results are interpreted to answer the original research questions (if possible), the significance of the research is discussed, and ideas for future studies are presented. (15 pts.)

PRESENTATION EFFECTIVENESS:

_____ **Topic Comprehension:** The presenters clearly understand the material being presented. All presenters could readily answer questions if asked. (5 pts.)

_____ **Delivery Style:** Presentation was well-rehearsed, no reading from notes or slides. The volume, rate, confidence, eye-contact, lack of filler words, and time frame was appropriate and effective. (10 pts.)

_____ **Overall Impression:** Was it a complete, finished product delivered by professionals in a professional manner? (5 pts.)

DOCUMENTATION:

_____ **Jupyter Notebook:** The submitted Jupyter notebook (pdf) followed the project requirements and deliverables detailed in the final project prompt. (10 pts.)

Presentation Strengths and Areas for Growth:
